NZCETA SALES POLICY

Please note that all CETA resources are produced using Microsoft Windows XP

Ordering Resources from NZCETA

All prices are GST inclusive.

The order form lists all the new resources which are described in the newsletter.

Only use the correct order form. Orders will be accepted via email, fax or post – no telephone orders are acceptable. If payment is not attached, a school order number must be given.

When ordering resources from the CETA catalogue, write the name and number of the resource in the blank space provided at the end of the order form.

Resources are available on disk or USB keydrive with the exception of booklets & posters which can be ordered as hardcopy. Preference must be indicated on the Order Form.

When an order is received CETA prepares a Tax Invoice, including the CETA GST number. If payment accompanies the order, the invoice is stamped 'Paid', if not it is stamped "Payment Due within Seven Days". The invoice is sent with the order.

Members' differential: to take advantage of the differential we offer to CETA members, it is essential that you complete the appropriate section on the order form with your membership number. To receive this differential the order must be made by a member and not on behalf of another person, or by quoting another member's number. We know that members appreciate this differential, and we are keen to continue our policy, but we must ensure that it is not abused, or it will be necessary to reconsider.

Delivery of Resources

All resources are sent using courier services.

Postage fee: **A flat fee is payable on all orders to cover courier and packaging costs. Please remember to include this in the order total.**

Courier service: **The courier service CETA uses requires all mail to be addressed to a street address. For this reason, it is essential to supply a school street address on all resource material orders. A post office box or private bag is NOT acceptable.**

Payment for Resources

Any items purchased on credit must be paid no later than the 20th of the month following purchase.

Please make cheques payable to NZCETA, and crossed Not Transferable.

CETA would like to encourage members and schools to use direct crediting when paying for subscriptions, professional development, and resource purchases.

Schools will need to send a Direct Credit Authorisation Form to CETA for bank account details. Please note that if this type of payment is used it is essential to indicate what the payment is for, example "resources", "PD", "subs – name of member".

All prices include GST.

Moderation/Evaluation

All CETA Achievement Standard and Unit Standard resources have been checked by experienced subject experts. Please note that this is not an official NZQA moderation.

Balance Day Adjustments Unit of Work	ACC 09/1/1v2	\$50.00	<p><i>Revised 2015</i></p> <p>This resource is a comprehensive differentiated unit covering: identifying and classifying Balance Day Adjustments writing general journal entries for Balance Day Adjustments adjusting the Trial Balance for Balance Day Adjustments completion of Financial Statements including Balance Day Adjustments pre and post assessments</p> <p>The resource includes material for 3 stages of ability, those requiring a lot of structure, through to those who are more capable and therefore require less structure. Differentiated learning tasks enable students to work at their own level and strive to achieve to the next. The use of differentiated tasks enables students to have a programme tailored to their needs. It is essential that more advanced students are not just simply given “more” work, but tasks designed for their ability. They may be able to skip some earlier steps in favour of the more challenging tasks. Pre-assessment is crucial to determine a student’s current level and therefore direct them to the most appropriate task. Pre-assessment highlights prior knowledge a student may have. Whilst Balance Day Adjustments are a new concept at Level 1 Accounting, the more able students may intuitively be able to apply the Accrual Accounting concept. These students need to be challenged so as not to become bored and therefore would benefit from operating at the <i>Step 3</i> activities. The PowerPoint presentations could be loaded onto school intranet site for students to access in their own time for further learning. Answering Interpretation Questions Analysis and Interpretation	ACC 10/2/3	\$35.00	<p>This resource is useful for improving students’ answers in Analysis and Interpretation. There are two full exercises with the focus on answering the interpretation questions. A guideline is given on how to answer these types of questions. In the first full exercise, students answer a series of scaffolded interpretation questions, learning how to write fully interpreted answers as they go. The second full exercise requires students to use the skills they have learnt in the first exercise to answer the interpretation questions. Solutions are included.</p> <p><i>Content: Resource Descriptor; Teacher Guidelines; Curriculum Links; Key Competencies; Qualifications Framework; Content Development; Assessment Guidelines; Two Student Activities with suggested solutions</i></p>

Revision of Conceptual Basis Using interactive smart board software	ACC 10/2/6	\$40.00	<p>This resource covers revision of conceptual basis using interactive smart board software. The material is produced specifically for the Smart Technologies Notebook software. There are two files in this resource each with ten slides of activities. The first file contains twelve interactive slides where students need to match, sort, and classify terms. They must also guess the words from given clues and “score goals” or “shoot hoops”. The second file contains ten slides where students must spell out two terms on each slide from given clues but against the clock. They are given a total score for each slide which can be improved on next time. This resource is ideal as either a lesson starter or finisher and is also useful for reinforcing key terminology.</p> <p><i>Contents: Resource Descriptor; Teacher Guidelines; Key Competencies; Qualifications Framework; Content Development; Assessment Guidelines; Activity; Suggested Solutions</i></p>

Card Games NZC Levels 6, 7 NCEA Levels 1, 2	ACC 05/4/2v2	\$30.00	<p><i>Revised 2011</i></p> <p>This resource is suitable for Years 11 or 12 Accounting. It contains a set of cards which can be used in two ways. The first, Let’s Practice Our Debits and Credits, is a dominoes game, while the second uses the cards to give an overview of Journals and their relationships.</p>
--	-----------------	---------	---

Instructions on how to play the games and suggested solutions are included. Each game has suggestions on how to vary the level of difficulty.

Aim of let's practice our debits and credits The aim of the game is to get rid of all the cards in the player's hand. A game could be made easier by leaving out the cards with balance day adjustment accounts. It would be made more difficult by making a rule that accounts on the left hand side of the card must be debited and accounts on the right hand side of the card must be credited.

Aim of journal review: Students are given the set of cards to arrange in a diagram that show relationships (structured overview). If students have difficulty, a blank overview diagram could be shown on an overhead transparency or some boxes could be filled in for clues.

Balance Sheet Date Adjustments

ACC 08/2/6 \$30.00

Students need to write general journals for balance sheet date adjustments. This resource template provides students with a scaffold to prepare either the basic journal entries or adjustments required and can also use the second part of the Grid to prepare complex journal entries. Students can make a simple sketch of the template.

NZC Levels 6, 7
NCEA Levels 1, 2

There is a structured approach to follow (thinking skills) to make the grid work but when followed the system is usually fool proof to allow the students to pass this section of the relevant Achievement Standard. Students can also use the grid to answer accrual questions.

Basic journal entries or adjustments required

Key Competencies; Using language, symbols and texts -Develop literacy and numeracy skills in a curriculum area; Name and use symbols appropriate to a discipline Thinking - Use simple thinking strategies; Recognise the type of thinking needed for a specific task Managing Self - Be organised for learning Participating and contributing - Participating actively in a learning activity - Choose an appropriate response from a range of options.

Contents: Resource Descriptor; Teacher Notes; Balance sheet date adjustments grid; Suggestions for use of grid.

The Tail of You-Know-Who

ACC 08/4/1 \$35.00

This activity is relevant to concepts, accounting theory, and the cash position of a business. It could be used as a class activity in these units or as revision at the completion of the relevant topics. The activity is based around an adapted version of Roald Dahl poem's Red Riding Hood, with an accompanying business related story. A calendar of entries is included. The questions are in two parts. Suggested Answers are included.

Fun at Level One! Statements & Balance Day Adjustments

ACC 13/2/5 \$50.00

This resource pack aims to provide teachers with fun and practical student-centred activities for the classroom. Each activity provides students the opportunity to reinforce content learnt in class and gives students the opportunity to work with others. Included is a variety of activities aimed at providing students with an interesting and interactive approach to learning, incorporating the key competencies. Students will enjoy the interactive, fun opportunities provided for in this pack from dice games, to moving between stations and biscuit design and budgeting. The main topics covered are: components of financial statements, balance day adjustments, Property, Plant and Equipment, Statement of Financial Position and Cash Budgets. Some activities require students to complete journal entries for balance day adjustments, however if this is not covered, these aspects can be removed from the activity. This resource would also be suitable to use at Level Two when reintroducing financial statements.

Student Based Activities Pack

This pack contains three activities covering all analysis measures. The activities are designed to be used to reinforce learning in this topic and allow students to identify flows of logic when looking at an analysis measure. The activities involve identification of information, calculations and analysis. The activities provide for students to communicate and compete against others whilst extending their understanding of this topic. The major topics covered are; profitability and liquidity. The resource is a package of practical activities for students to practise their understanding of analysis measures. They involve a competitive nature in order to provide excitement and interaction. The activities do need some preparation which is detailed below with instructions on how to run the games. Extension components are sometimes suggested which some students may use and others may not. The emphasis is on mastering the analysis measures and their interpretation. These games are designed to engage students and develop understanding. Teachers should feel confident in adapting activities to the needs of their students if required, for example, introducing new examples, or removing content not yet covered.

Specific Content These activities will enhance a student's ability to:

- Calculate and interpret profitability measures
- Calculate and interpret liquidity measures
- Understand what impacts on liquidity
- Form logical flows from cause to effect

Contents: Resource Descriptor; Teacher Guidelines; Student Activities – Out There Outdoor Supplies; Looking into Liquidity including extension; Flow Chart of Analysis Suggested Solutions

Speed Up the Process - Processing Financial Information

ACC 14/2/1 \$65.00

NZC Level 6
NCEA Level 1

ideal for student directed learning and also for use on BYOD devices

Assessment Link
AS 90777 (1.2)

This is a comprehensive pack containing 17 different student activities allowing the implementation of Excel as a tool for processing financial information. Detailed instructions allow for students to complete the tasks at their own pace and gives them ownership over their learning. Supplementary information is provided for how to use Excel for this specific level of processing. It engages students as they can see links between information and are not disadvantaged through presentation or calculation errors. In addition to the processing tasks more in depth analysis questions are asked at key stages throughout the process.

The tasks are split into 4 groups; 1 documents, 2 cash journals, 3 cash journals/bank reconciliation/bank ledger, 4 general ledger/chart of accounts. Assessment Link: Achievement Standard 90977 (1.2)

Structure of the Resource - The tasks in this pack are designed to be completed in 4 stages;

- Source Documents
- Cash Journals
- Cash Journals, Bank Reconciliation and Bank Ledger
- General Ledger and Chart of Accounts

The same business context is carried through the tasks, for example for "Simon's Snowsports" there are tasks covering; source documents, cash journals, bank reconciliation, bank ledger, general ledger, trial balance and chart of accounts. This is provided to show students the complete process for a context, but broken into stages so as to be manageable for both teaching and learning.

Whilst some supplementary advice is provided as to how to complete

the process it is assumed that teachers will still explain the key teaching ideas behind this strand, for example, the appropriate use of the receipts and bank column in the Cash Receipts Journal and the purpose behind completing a Bank Reconciliation.

The files have been saved in two ways to allow for teacher flexibility – context and individual business

Separate instructions have been provided to aid students in; using formulae in Excel (“**tips for using formulae in Excel**”) completing the processing of Accounting information (“**student instructions by task**”)

Student access to resource - If the tasks are put on a school network students can access them at their own pace. This encourages student driven learning and they can set the pace for themselves (within reason). Students can then email or upload their work for it to be marked by a peer or teacher. You may choose to provide some answers on the school network to allow students to self-assess their work. There is no longer a need to print work for it to be marked.

Guidance for students unfamiliar with Excel - Students may need some guidance as to how to manage a spreadsheet. They may or may not be aware of the functions described in the student instructions. Do not assume that they will be confident to link between pages initially. Students will need to be encouraged to take advantage of formulae rather than calculating a number and inputting the result. You could show the benefits of formulae by getting students to change a number in their cash journal and see how Excel will carry the correction through to all other places which are affected eg. If you were to change a cash receipts figure, Excel would correct the Bank Ledger along with the Trial Balance at completion. It is important that the “processing” tasks are broken up with non-screen time otherwise students may become disengaged. You can do this by taking time out to practise classification of accounts for Chart of Accounts numbers or discussing the benefits of an electronic based accounting system over a manual one.

Some literacy based tasks have been included at each stage to challenge students to explain the purpose of documents and of keeping accurate financial records.

There are a significant number of tasks which cover the general ledger, trial balance and chart of accounts. If a student has mastered these skills quickly it should not be necessary for them to repeat the skill they have already demonstrated. Instead you may choose to assess them early (provided they are ready) and then provide some additional challenge. A student who is not challenged may also become disengaged.

Specific Content - *These activities will enhance a student's ability to:*

Use computer software to process information

Accurately complete Source Documents, Cash Journals, Bank Reconciliations, General Ledger and Chart of Accounts

Understand the links between accounting information in the accounting process.

Financial Statement Fun - Prepare financial statements for sole proprietors

ACC 14/2/3 \$65.00

This resource consists of 32 questions on Income Statements and Statement of Financial Positions with property, plant and equipment notes for both service and trading entities including balance day adjustments. The resource is designed to be used using excel but could also be printed out and completed manually. The resource is a series of 8 sets of 4 trial balances (so 32 trial balances and answers in all!). The sets of trial balances start with simple Income Statements for service entities with headings and shading to help students – students complete either all four in that set or move on after completing two or three if they are confident. The sets increase in complexity until the final set which has no headings or shading and requires students to complete Income Statements; Statements of Financial Positions;

property, plant and equipment tables using balance day adjustments. Assessment Link Achievement Standard 90978 (1.3)
It is designed to be used for students to practice preparing financial statements for sole proprietors and is an ideal way of students working through the trial balances as their understanding improves.
The resource is prepared using excel software and is idea for use in the computer room/on laptops or on students BYOD. Students could be told to start on Set A and complete two (or three) of the trial balances and if they get them correct, could move on to Set B. Some students could be directed to do all four of the trial balances in order to get the most practice to enhance their skills.

Content Development - Students should have been taught how to prepare financial statements using balance day adjustments. The teaching could be happening as the work is being completed.

Specific Content - At the conclusion of this topic students should be able to

- prepare a service Income Statement incorporating balance day adjustments
- prepare a trading Income Statement incorporating balance day adjustments
- prepare a Statement of Financial Position incorporating balance day adjustments
- prepare a Property, Plant and Equipment note

Resources

- Set A – Service Income Statements with headings and shading
- Set B – Service Income Statements with minimal headings and includes ‘other income’
- Set C – Trading Income Statements with headings and shading
- Set D – Trading Income Statements with purchase returns, sales returns, freight in, customs duty
- Set E – Statements of Financial Position and PPE notes with headings and shading
- Set F – Income Statements and Statements of Financial Position with PPE notes, for both trading and service entities
- Set G - Income Statements and Statements of Financial Position with PPE notes, for both trading and service entities, with indepth balance day adjustments

Interactive Resource Supporting Analysis & Interpretation

ACC \$70.00
16/1/1/3

This resource pack includes a series of 11 interactive activities. The activities can be used in a variety of ways but have been designed to support individual use by students in their own time. If students worked on the basic skills using these activities in their own time, then valuable class time can be freed up to focus on the higher order tasks associated with "fully explaining". This is the concept of the flipped classroom, or student centred learning where students can choose their own pace and the order in which they learn.

An outline of the topics covered

Profitability A – focuses on changes in sales, gross profit & mark up. Activities are progressive in nature building from calculations to developed reasoning

Profitability B – focuses on expenses & profit for the year with progressive activities.

Liquidity & Financial Stability – focuses on current, liquid & equity ratios.

<p>Make a Financial Decision Assessment v2 No 1</p>	<p>ACC 11/1/11 Version 2 (Feb 2017)</p>	<p>\$45.00</p>	<p>This assessment requires the students to research using secondary data (and primary data if they choose to collect it).</p> <p>Information may be collected individually, in groups or as a class. The teacher should decide before commencement of the research which method will be acceptable. Allowing students to work in groups or as a whole class to research information may shorten the time taken for the research activity. Students must be able to provide source details of the evidence they have used in their report justifying their finance decision, linking this to the financial and non-financial reasons for their decision. This means that whatever arrangement is made for research of data (i.e. individual, group or whole class) students must keep track of where the information has come from. The teacher will also be able to give advice to students regarding their chosen sources of information. The report, however, must be an individual effort. The report must supply evidence of research using secondary data at least (and primary data if collected). The assessment relates to Achievement Standard 90981 (1.6).</p> <p><i>Contents: Teacher Notes; Student Practice Assessment; Resources; Assessment Schedule</i></p>

The assessment task could be adapted for other small entities such as individuals, service businesses, trading businesses, farms, community organisations and schools.</p> <p>This assessment task uses a written report for students to present their findings however teachers can choose other methods of presenting the information such as power points or wall posters. Check points with due dates should be built into this assessment not only to ensure students meet the deadline but also to help the teacher ensure authenticity. Questionnaires could be written by individual students or designed in class as a group activity. The "Possible questions" resource included in this pack could be used for the assessment task. Questions need to be relevant to the entity that is chosen to be used for the task. Teachers can also adapt the task to be completed entirely out of class time or as a mixture of in class and out of class time.
